

Mane Galarraga's RQs

- 1) Action of the pili in microorganism's pathogenicity.
- 2) Dextrans for polymers
- 3) Lipid A with polysaccharide cores in which organism?
- 4) Riketsia provazeki: thymus
- 5) Myasthenia Gravis: thymoma
- 6) Clostridium all except
- 7) Clostridium tetani: inhibitory neurotransmitter
- 8) Paramyxo rubella + measles
- 9) Hepatic failure due to (common cause)
- 10) MOA: fluorouracil
- 11) MOA: rifampicin
- 12) Intracellular element of glucagon
- 13) In which organ more squamous epithelial metaplasia seen?
- 14) Substrate of thrombin
- 15) Haptens?
- 16) Amino acid associated with Umami. Glutamate
- 17) Apoptosis
- 18) Hydroxylation of proline? Vit C
- 19) What is not in periosteum?
- 20) Difficult to move thumb due to which nerve? Median N
- 21) Esophagus begins where?
- 22) Meisseiner's corpuscle responsible for? Fine touch
- 23) Granulas stained keratohyalin
- 24) IgA: Saliva
- 25) Muscles that produce voice.
- 26) Alcoholic: Mallory bodies
- 27) Most frequent form of varicosities. Sup. Vein leg
- 28) Secreting endometrium: Luteal phase
- 29) Which is not found in seminiferous tubules?
- 30) Ligamentum teres = umbilical vein
- 31) Inferior parathyroid = 3rd pouch

- 32) Origin of pons and medulla = Rhombencephalon
- 33) A man of 40 years with increased level of acid phosphatase: prostatic cancer
- 34) How do you diagnose cystic fibrosis: ↑ Cl and Na
- 35) Tay Sachs disease
- 36) Most common cause of infract brain
- 37) Diabetes insipidus?
- 38) GI cancer = villous adenoma
- 39) Most common type of anemia: ↓ iron
- 40) Type of necrosis?
- 41) Crypts of Lieberkuhn where are?
- 42) Movement of small intestine for mixing food(or something like that I can't remember)
- 43) What is not absorbed in Jejunum?
- 44) Where are centroacinar cells?
- 45) Which is innervated by vagus nerve?
- 46) How start cardiac muscle contraction?
- 47) Which hormone is not a glycoprotein?
- 48) Where is safe lumbar puncture?
- 49) Which method is better to combine with heat sterilization?
- 50) How is the process for DNA finger printing?
- 51) 4 years old boy with fracture teeth, how much you want to complete RCT?
- 52) How are crowns of primary teeth compares with permanent?
- 53) Primary maxillary 1st molar and mandibular 1st molar? Prominent cervical ridge.
- 54) Which posterior teeth is most likely to be missing?
- 55) In a Y shaped premolar how is the order of the cusps from larger to smaller?
- 56) Patient with stains on PM, canines and 2nd molars but anterior teeth were spared, when was received tetracycline?
- 57) Purulent discharge after extraction, which microorganism?
- 58) Where are phagocytes in TMJ?
- 59) On articulator, altering horizontal condylar guidance affect all except?

- 60) When swallowing teeth should be?
- 61) Space between teeth in rest position?
- 62) Which muscles depress mandible? (Name all)
- 63) Which muscle retrude mandible?
- 64) Which PDL fibers are more abundant?
- 65) How to manage a patient with TB that is taking Rifampicin for 6 months but he is till +ve, he needs dental treatment, what do you do?
- 66) In an Inferior Alveolar Nerve block facial paralysis due to?
- 67) First case Tangy
- 68) Second case Tangy
- 69) Like 4 case more that I can't remember
- 70) Case 7 Tangy
- 71) Case 6 weeks pregnant lady from Tangy
- 72) Case # 25 from Tangy
- 73) Case # 29 from Tangy
